

Heather Peiritsch MSN, RN, NEA-BC

Currently employed at Jefferson Health as Enterprise Senior Director of Care Coordination, Heather is responsible for providing leadership and oversight for all care coordination operations and personnel ensuring alignment of best practices and standardization to support high-quality, cost-effective patient care. This includes standardization across the enterprise and having direct accountability for program effectiveness and efficiency. Heather works in close collaboration with population health, clinical leaders, and hospital departments to monitor and provide reporting on the Care Coordination program activity, ensuring appropriate effectiveness in managing populations in episodic and longitudinal care coordination and transitions of care. Heather has over 25 years of nursing experience with a broad healthcare background in the areas of population health, post-acute care, home and community-based services and nursing education. She has demonstrated success in developing strategic partnerships and leading change with the ability to develop operational strategies that align to business goals. Heather is a passionate and enthusiastic leader in the evolution and successful implementation of value-based programs and promoting high quality and safety for patients. She has a Master's in Population Health Nursing from LaSalle University and is board certified as an Advanced Nurse Executive.
